

# LOVE FOR ALL TIME

If ever there was a heaven on Earth  
It's there in your eyes, you've ended my search  
If ever there was a feeling so right  
It must be the way that I feel tonight

After all my fingers crossed  
Just when I thought all hope was lost  
That's when I found you  
It all was worth the cost

If ever there was a fire so strong  
It's here in our hearts, it's where we belong  
And just like that day, the first time we sang  
Ooh, there is a spark, and maybe a bang

Now I'm not worried anymore  
Of what my future holds in store  
Because all my life  
You're what I waited for

When I'm singing here with you  
I'm the best I'll ever be  
All my dreams came true because of you  
You mean the world to me

If ever there was a good time to cry  
It's these tears of joy that fall from my eyes  
'Cause being with you, it's just like a dream  
If only you knew just how much you mean

Oh I'm not worried anymore  
Of what my future holds in store  
Because all my life  
You're all that I've looked for

If ever there was a love for all time  
If ever there was, it's yours and its mine  
Our love, it is for all of time
